

Glaucoma Week Video Transcript

Over 300,000 Australian's have glaucoma but tragically half are unaware they have the disease. First degree relatives of people with glaucoma have an almost 1 in 4 chance of developing glaucoma in their own lifetime. Currently there is not cure for glaucoma. The best way to protect your sight from glaucoma damage is to have a comprehensive eye exam. Help raise awareness get involved in World Glaucoma Week from the 11-17th March 2018. Host a B.I.G Breakfast and help Beat Invisible Glaucoma. Involve your friends, family. Your community group, tell your glaucoma story.

For more information or to register your B.I.G Breakfast visit www.thebigbreakfast.org.au
