

## Gough script

Hi I'm Gough founder of Beernuts Productions a production company based on the Gold Coast.

I'm the first legally blind person to write, produce, edit, direct and star in a full-length feature film. Unfortunately at the moment people with a disability struggle to find meaningful employment and achieve their goals. So please support Vision 2020 in all they do to help those with disabilities achieve their work passions and dreams.

Thank you for watching.
